

LincDocTM

SMARTER PROCESSES MAKE BETTER BUSINESS.
SMARTER PROCESSES START WITH LINCDOC.

LincDoc™

LincDoc improves processes with smarter handling of data.

Create web-accessible interfaces to help information commute from customer to enterprise quickly, accurately and affordably.

Put an end to...

REDUNDANT PROCESSES

Populate common data and combine multiple steps into a single eForm

NON-COMPLIANT DOCUMENTS

Quickly update pre-approved regulated templates and content

EXCESSIVE SCANNING COSTS

Minimize scanning with information that is never put to paper, or "born electronic"

DISCONNECTED INFORMATION

Push/pull data to and from any source or system to leverage enterprise information

LOST DATA

LincDoc business-logic and intuitive interfaces never miss a name, number or required field

DATA SECURITY RISKS

Lock it down by removing people from processes with permission-based eForms

SLOW PAYMENTS

Embed electronic payment solutions to expedite revenue collection

SLOW ONBOARDING

Customers and employees fill out, e-sign and pay in the field or office

PAPER HANDLING & STORAGE COSTS

Archive, recall documents in the cloud, not a basement cabinet

LENGTHY, CONFUSING FORMS

Attractive, dynamic web portals condense pages of paper into a few fields

CLOUD

Hosted and quick to productivity, LincDoc's Cloud solution is how content gets captured on the web.

ON-PREMISE

LincDoc on-Premise is secure and capable, giving users a grounded, affordable solution for re-inventing paper-based business processes.

FREEFORM

Use eForms to better business one process at a time. FreeForm is modular, simple and offers tremendous value.

Forms initiate **process**.
Process drives business.

LincDocTM

LincDoc FreeForm gives organizations the flexibility to use only as many hosted eForms as needed. It's affordable, convenient and the ROI is immediate.

FreeForm is the perfect solution for smaller operations needing to collect data for a single process or to better engage customers online. Don't use downloadable PDFs or Word forms, simply re-code them using LincDoc to create easy, true eForms that can store and route data around printers and scanners right to the people who need it.

LincDoc™

FREEFORM

FREEFORM is the perfect solution for:

YOUR WORST FORM

Convert your most lengthy, problematic paper form into a dynamic cloud eForm for guaranteed completion and immediate access to its information. Relieve the paper headache.

DATA CHURN

Stop re-entering the same data into different systems. Capture information once for dissemination to all enterprise systems and stakeholders.

WAITING ON OTHERS

Connect to external / internal systems to populate fields and common data to expedite processes and open information flow.

CONSTANT SCANNING

Stop scanning at its source: paper. Capture data in hosted eForms without having to manually index any of the data into document management systems.

UNHAPPY CUSTOMERS

Improve the customer experience with online, easy-to-complete eForms that present questions logically, automate calculations and accept e-signatures.

OUTDATED FORMS

Quickly update and customize eForms with pre-approved content and enhanced features. Save bunches on form orders, printing and publishing costs.

LincDoc was built to make business easy to transact, and it gets no easier than LincDoc's Cloud solution. This dynamic, hosted software uses contextually-driven eForms to collect and more profitably leverage the critical data that generates business.

With an array of functionality, practical add-on components and access anywhere, LincDoc Cloud is the ECM world's most robust eForms and document automation software.

LincDoc™

CLOUD is the perfect solution for:

CLOUD

PAPER MISMANAGEMENT

Stop losing, misplacing or damaging critical documents that clog the deal pipeline. Use LincDoc eForms to capture and leverage data as soon as it hits the organization.

BAD FORMS

Replace multiple outdated, non-compliant paper forms with a single dynamic, cloud-based eForm for any process in your organization, from customer onboarding to human resources.

UNPAID SERVICES

Increase cash flow by collecting in-form electronic payments to quickly and securely conduct authentic electronic transactions.

DOCUMENT STORAGE

Storing decades of documents is costly and risk-prone. Host forms, data and finalized documents in the cloud, not in the basement. Use archived data at will and never scan again.

DATA RE-ENTRY

Stop repeating data entry processes to bridge communication gaps from system to system. Enter it once via LincDoc in the cloud and share it across the enterprise. Already unified with major DMS like DocuWare and Sharepoint.

EXPENSIVE PRINTING

Ink costs are growing by the day, as are printer maintenance and service fees. Drastically reduce costs by transitioning to LincDoc eForms. Leave paper behind.

For organizations with an established internal structure, LincDoc on-Premise unloads the burden on productivity that paper has piled on your operation. Instead, use a logic-driven and secure way to collect and leverage form data, reduce long, complex documents to a single intuitive web page and connect with any existing database in your system.

ON-PREMISE is the perfect solution for:

ON-PREMISE

DATA ENTRY

Capture data only once for use in every system. Stop going from paper to database and re-entering data to bridge systems. Improve data integrity and use it for business right away.

REDUNDANT PROCESSES

Consolidate information gathering processes with LincDoc business logic into a single, cloud-based document. Stop repeating processes to use already captured information.

SLOW ONBOARDING

Document automation assembles pages and content on-demand to roll-out any type of transaction requirement, in-house or in the field. Pay and sign digitally in the same document.

DOCUMENT UPDATES

Create custom forms in moments using pre-approved hosted content. Add new fields, language and dynamic features quickly to avoid costs and delays in paper creation and printing.

DOCUMENT STORAGE

Storing decades of documents is costly and risk-prone. Host forms, data and finalized documents in the cloud, not in the basement. Use archived data at will and never scan again.

LOST INFORMATION

Online forms push and pull data into the systems it requires to benefit your organization. No more lost pages, incomplete forms or scanning errors. It's all where it should be.

LincDoc™

OPTIONAL COMPONENTS

LincDoc can be customized with a fleet of powerful add-ons to advance your business processes. Some include:

LINCDOC MOBILE

Use the iPad as a digital clipboard to onboard new employees or customers when the offer or deal is sealed over lunch. Download the iPad version at the iTunes App store.

MSAD/LDAP

This popular component uses existing user and security groups by connecting to AD or LDAP. Single usernames and passwords minimize confusion and speed eForms access.

DMS INTEGRATION

Connect any LincDoc eForm or digital document with your existing Document Management System to immeasurably speed up processes.

DATABASE LOOKUP

Pull and push data from internal systems to populate common data and ensure compliance directly in LincDoc eForms.

DIGITAL SIGNATURES

Finalize contracts, agreements and get authorization with any form of embedded electronic signature:

- ▶ Clickwrap
- ▶ Topaz
- ▶ LDAP
- ▶ Finger/Touch-screen (for tablets)
- ▶ Mouse
